

COMPACT SPEAKER

BS-B220

New

2
CHANNELS

2 X 20 W

8 Ω

IP55

DESCRIPTION

Pair of compact 2-way 2 x 20 W loudspeakers consisting of an active speaker and a passive speaker with Bluetooth receiver that can be integrated into any public venue for a PA system or speech.

Ideally suited to installations such as shops, restaurants, multi-purpose halls, etc.

These speakers can be used indoors or outdoors (IP55).

Auxiliary input via 3.5 mm jack on rear panel.

BLUETOOTH SPEAKERPHONE

Bluetooth technology enables a wireless connection between audio sources such as smartphones, tablets, PCs, Android or Apple devices.

Already paired Bluetooth devices are automatically recognised. The range, depending on the conditions of use, is up to 10m.

Bluetooth connection visible by a blue LED

ACOUSTIC QUALITY

The high quality loudspeaker allows the reproduction of a very natural sound by guaranteeing a uniform sound field.

The power of these 2 loudspeakers allows a quality use on surfaces of up to 100m².

MOUNTING

Quick and easy assembly, flat, magnetic metal grille, ABS contour.

Private power supply, speaker cable, brackets included.

Active and passive speakers are connected by terminals.

Only works in pairs.
