DESCRIPTION

· Wired conference system with multiple functions including recording, voting and video tracking.

FEATURES

· Each desk has its own built-in 3W loudspeaker and headphone socket for listening.

· The CS-041C "President" console has a "TALK" button and a "PRIOR" button to mute all active consoles on the system..

· Up to 8 "President" consoles can be connected to a system.

· The CS-042D "Delegate" console has a "TALK" button and is at the same priority level as the other participants.

· All lecterns are fitted with a semi-rigid, thin electret microphone with a red light ring that lights up when the microphone is in use. The flexible microphone uses a 4-pin CB connector, making it easy to connect and disconnect.

· Modes AUTO/FIFO sélectionnables.

· The microphone can pick up sound up to 30 cm away..

· Volume control via potentiometer.

· Digital display showing the console number.

· Good sound quality over long-distance transmissionn

· Quick and easy to install thanks to the connection cables supplied (1.3 ml with the microphone stands + 10 ml with the control unit).

· 5 Action buttons for the voting function

· DIN 8-pin input and output sockets..

· Dimensions (W x D x H) :
  - Panels: 125 x 165 x 65 mm - Weight: 0.8 Kg
  - Flexible microphone: W 410 x Ø 30 mm, windscreen included
